## Exciting Developments and Insights

By Sandeep Manoharan, CEO

I'm thrilled to share some exciting developments with you.

Our Margin Management Feature now offers real-time functionality for pledge/unpledge, ensuring accuracy and other unique functionalities for collateral retention.

Additionally, our Enhanced Ledger & Collateral Management system enables seamless fund transfers between segments.

Our partner onboarding module went live at one of the site and it is a very unique product launched first time in India.

Please connect with our solution specialist for a detailed demo.

Comprehensive Margin Management Features

Enhanced Segment-wise Ledger & Collateral Management

Order Slicing Goes Mobile

ANMI 2024

CRM Solutions for Broking firms

## MARGIN MANAGEMENT SOLUTIONS

Our system provides real-time or offline margin pledge/unpledge functionality with clear collateral value visualization. Additionally, we use pledge re-inquiry to ensure accuracy and offer a unique feature allowing users to unpledge stocks while retaining remaining collateral. Clients can also track historical pledge/unpledge requests and margin benefits.

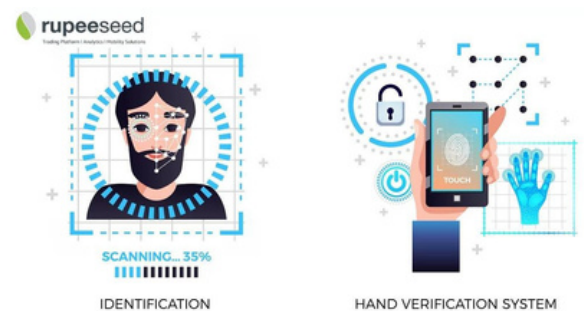

## ENHANCED LEDGER MANAGEMENT

Members/Brokers have the flexibility to utilize segment-wise ledger and collateral, with built-in features for seamless inter-segment fund transfers. Clients can instantly transfer funds online between the segments.

## ANMI 2024 HIGHLIGHTS

We enjoyed engaging with industry leaders, establishing new prospect synergies for wholesome client satisfaction and exchanging valuable insights. The turnout at our stall was overwhelming. Thank you for exploring and engaging with us. Check out our event highlights!

## CRM SOLUTIONS FOR BROKING FIRMS

Discover how integrated CRM solution is transforming the broking landscape with clear visibility from top to bottom on revenue and client acquisition. Learn about their significance for stockbrokers, explore practical applications, and gain insights into overcoming specific challenges.
