VOL. 32 | AUGUST, 2025

Updates & Insights

By Sandeep Manoharan, CEO

As capital markets continue to evolve, staying ahead requires platforms that are faster, more efficient, and fully aligned with regulatory needs. At Rupeeseed, our focus is on delivering enhancements that not only simplify daily operations but also create lasting value for our partners and clients.

This month's updates include BSE IPO integration and enhanced Early Pay-In controls, along with key regulatory changes such as MTF functionality that supports both CASH and NON-CASH segments and Introduction of new error codes for Algo orders, to name a few.

Thank you for your continued trust and partnership as we work together to build a smarter, more connected capital markets ecosystem.

Product-level Enhancements

Trading

BSE IPO INTEGRATION

Members can now offer IPO on the BSE exchange for both Mainboard and SME segments. This feature complements the existing IPO application facility available on the NSE.

ENHANCED CONTROL FOR EARLY PAY-IN VIA API

A new provision allows members to restrict specific clients or client groups from sending Early Pay-In instructions to the depository via API after executing sell transactions.

HISTORICAL REPORTS VIA BACKEND UTILITY TOOL

Members can now conveniently download historical reports, including order books, trade books, funds pay-in/payout reports, and more using the backend Utility Tool.

Regulatory Update : Introduction of New error codes for Algo orders

NSE has introduced new error codes for ALGO orders across all segments, based on extra validation from the NNF ID.

These changes have been implemented across Rupeeseed's trading platforms and systems.

Regulatory Update

1. MTF UPDATES – GO-LIVE FROM OCTOBER 1, 2025

In line with the regulatory mandate, we are ready to go live with Margin Trading Facility (MTF) solutions across both CASH and NON-CASH segments — a capability currently unique to us in the market.

2. NOMINATION CHANGES – PHASE II NOW LIVE (EFFECTIVE AUGUST 8, 2025)

Phase II of the nomination changes is now live. Clients can add multiple nominees, supported by the introduction of new fields across account opening, modification, and closure processes.

More exciting updates ahead as we remain committed to delivering better solutions for you.
