Rupeeseed Technology Ventures Pvt Ltd

**VOL. 33 | SEPTEMBER, 2025**

## Updates & Insights

By Sandeep Manoharan, CEO

In today's fast-moving markets, speed and control are essential for every trader. At Rupeeseed, our focus is on building intuitive features that simplify trading decisions and ensure seamless compliance with evolving regulations.

This month's updates bring smarter trading features such as One-Click order placement and Multi-Leg strategy execution, along with enhanced Physical Settlement Margin controls for stock options. On the regulatory front, our systems are fully aligned to ensure seamless handling of new market data changes in the derivatives segment.

We are also delighted to share a major milestone—RTVTech Backoffice is now fully live on the India International Bullion Exchange (IIBX), enabling seamless and compliant bullion post trade operations.

Thank you for your continued trust in Rupeeseed as we work together to build a smarter, more resilient capital markets ecosystem.

## NEWSLETTER HIGHLIGHTS

### ► TRADING

#### Product-level Enhancements

- One-Click options trading feature
- Multi-Leg Trading Facility
- Physical Settlement Margin Control – Stock Options

#### Regulatory Update

- Handling of Transcode Changes – NSE Derivatives Segment

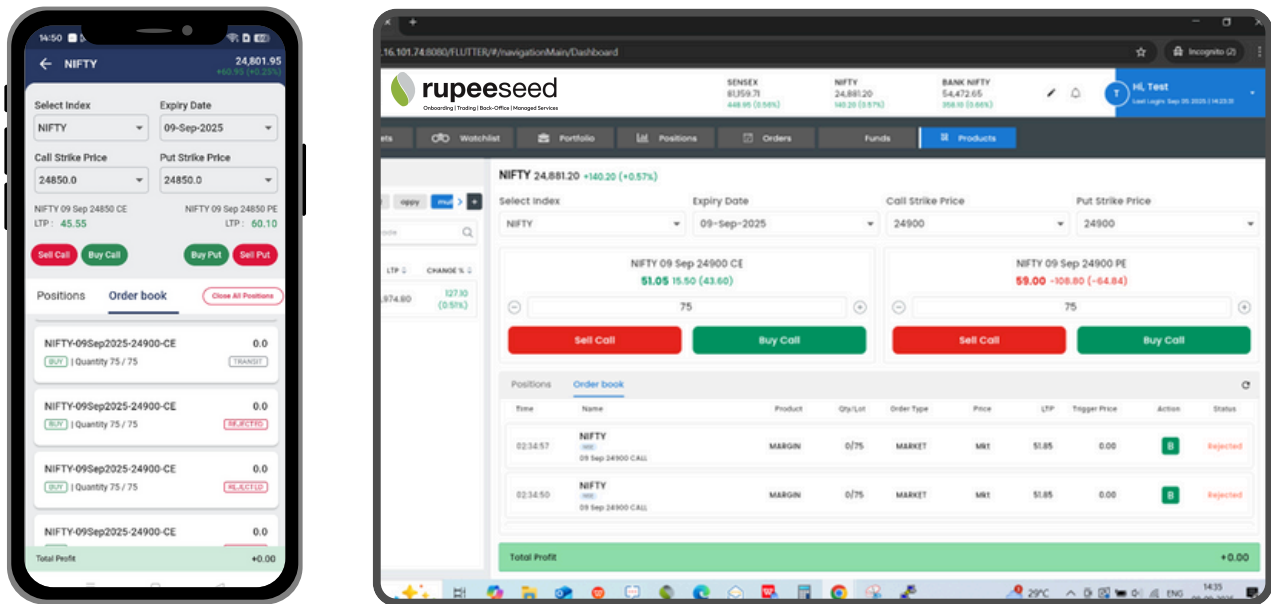

### ► Backoffice

- RTVTech Backoffice Expands Presence to IIBX

## Product-level Enhancements

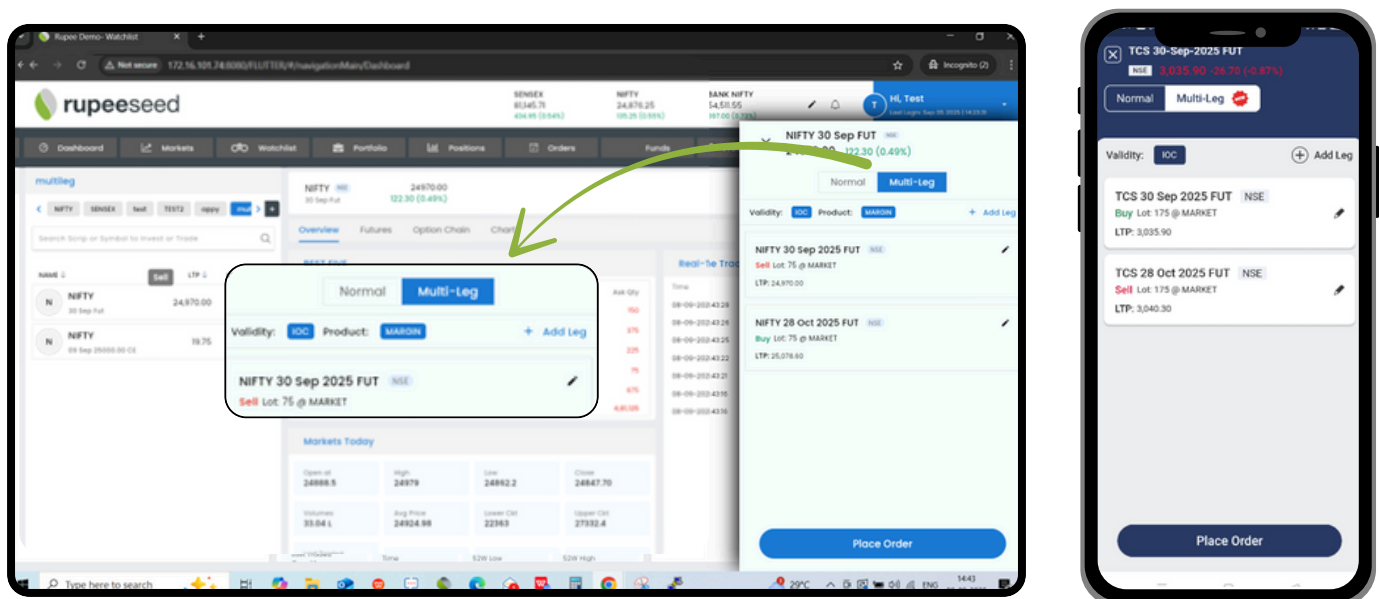

## Trading

## ONE-CLICK OPTIONS TRADING FEATURE

An essential tool for options traders, enabling instant buy or sell orders with a single tap, eliminating the need for multiple order confirmation screens.

## MULTI-LEG TRADING FACILITY

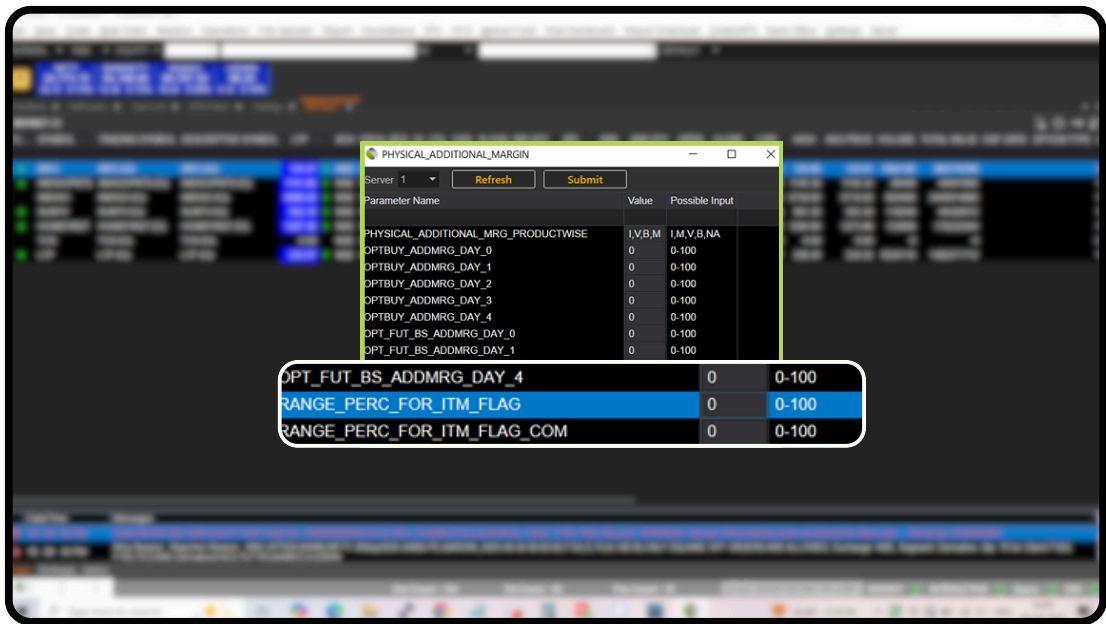

Beneficial for hedgers, this facility enables executing multi-leg strategies within a single order window. This reduces the need to place separate orders, ensures faster and more efficient execution of complex strategies, and helps minimize price execution risks.

Product-level Enhancements

Trading

PHYSICAL SETTLEMENT MARGIN CONTROL – STOCK OPTIONS

Members can now set a threshold percentage for charging physical delivery margin on close-to in-the-money stock option contracts. This helps reduce margin risks during physical settlement.

Regulatory Update

Trading

HANDLING OF TRANSCODE CHANGES – NSE DERIVATIVES SEGMENT

As per the regulatory circular effective August 2, 2025, NSE has introduced new broadcast parameters and transcodes for market data in the Futures & Options segment, including Ticker, Market Index, Market Watch, and Bhavcopy broadcasts.

We have updated our systems in line with these changes to ensure seamless handling of Open Interest and other market data for our clients.

For detailed information on the updated transcodes and broadcast parameters, please refer to NSE Circular No. 36/2025.

***RTVtech is now fully live on the  
India International Bullion Exchange (IIBX)***

We are delighted to announce that RTVtech Backoffice is now fully live on the India International Bullion Exchange (IIBX), enabling seamless and compliant bullion trading. This milestone reinforces our commitment to delivering future-ready fintech solutions for market participants across India and around the globe.

**More exciting updates ahead as we remain  
committed to delivering better solutions for you.**
